

K-LOVE serves me in my local community as my only source of Christian Radio. My husband and I both support K-LOVE and as do many other listeners in our area and feel K-LOVE if displaced by an LFPM broadcaster would be a great loss to our community. K-LOVE although broadcast's world wide also provides us information on local events that are available to the local community and surrounding areas. I believe the services K-LOVE provides me is of great public interest.
